ELEVATING EDUCATION

Beulah Brownfield Memorial Adult Scholarship Recipient

"I can't express how much this scholarship means to me. The funds will of course help me with the huge cost of vet school; however, the fact my community believes in me is an enormous reason for me to desire to come back to this area. I feel so connected to my Coshocton community and have always had the goal of returning to serve Coshocton County. I sincerely thank all of those involved in the Coshocton Foundation."

— Elizabeth Porteus

ELEVATING EDUCATION

The Coshocton Foundation is committed to improving our community, and elevating education is a big part of that. Your donations help us award more than 100 scholarships to high

school seniors each spring. Scholarships are also awarded to non-traditional adult students, and the Foundation partners with COTC to guarantee qualifying residents free tuition. Many of the recipients return to Coshocton County to give back, elevating our community as a whole.

CHS Class of 1973 Scholarship Selection Committee:

"It was with great pride and gratitude that we were able to contribute to the **Coshocton Foundation's scholarship fund**. Sending a hard-working and deserving student off to college with some financial support is crucial for their success and was our privilege."

Earl J. Patterson and Patrick E. Patterson Memorial Scholarship Fund

This newer fund was established through the Living Trust of Patrick E. "Pep" Patterson, and honors the memory and lives of Patrick and his father Earl J. Patterson. Earl, a Navy Veteran and career electrician, retired to farm alongside his son, Patrick, a graduate of Ridgewood High School. The scholarship is awarded annually to a Coshocton County graduating senior or a university student pursuing a degree or certificate in agriculture or engineering, with preference given to graduates of a high school Future Farmers of America organization (FFA).

Brianne Hagans, an FFA member at River View High School, was the 2023 recipient.

Caden Croft

Carlson Scholarship Loan Fund:

Created with a bequest from the estate of Herbert and Jean Louis Carlson, this scholarship loan fund requires area graduates to pursue a teaching degree in math or science at the College of Wooster. Following graduation, the student is to return to the area to teach for at least three years. When all obligations are completed, the four-year scholarship loan will be forgiven in its entirety.

"It was a very humbling experience winning the Carlson Scholarship in 2017. When I decided to attend the College of Wooster, I was not 100% sure what I wanted to do as a career. I had a few ideas on what I wanted to do, but the Carlson Scholarship helped me find my path on what I love doing now — teaching. The Carlson Scholarship provided me with the necessary tools and resources to become successful in and out of the classroom. It also provided me the opportunity to give back to the community that watched me grow as a person and student. I am now entering my third year at River View, helping to teach science and Special Ed! I could not be more grateful for the Coshocton Foundation for everything they have done!"

CAMP INVENTION

With the addition of Ridgewood in 2023, all three local school districts now host **Camp Invention** and saw record attendance this year!
